

**MEASURE MEDIA**

**Homepage Image and Values**

---

## Problem

We research the various conversion rate opportunities to identify the main problems to test.

## Hypothesis

We formulate a test based on changing variables to predict the impact.

## Goal

We identify the potential return of the test.

## Results

We report accurately.

## Implement

We work to get it live.

## PROBLEM

---

- Need to drive users into the conversion funnel faster from the homepage

## HYPOTHESIS

---

- By changing the value proposition on the homepage and improving the image, users would be more likely to register or enter the conversion funnel and convert at a higher rate.

## STRATEGY

---

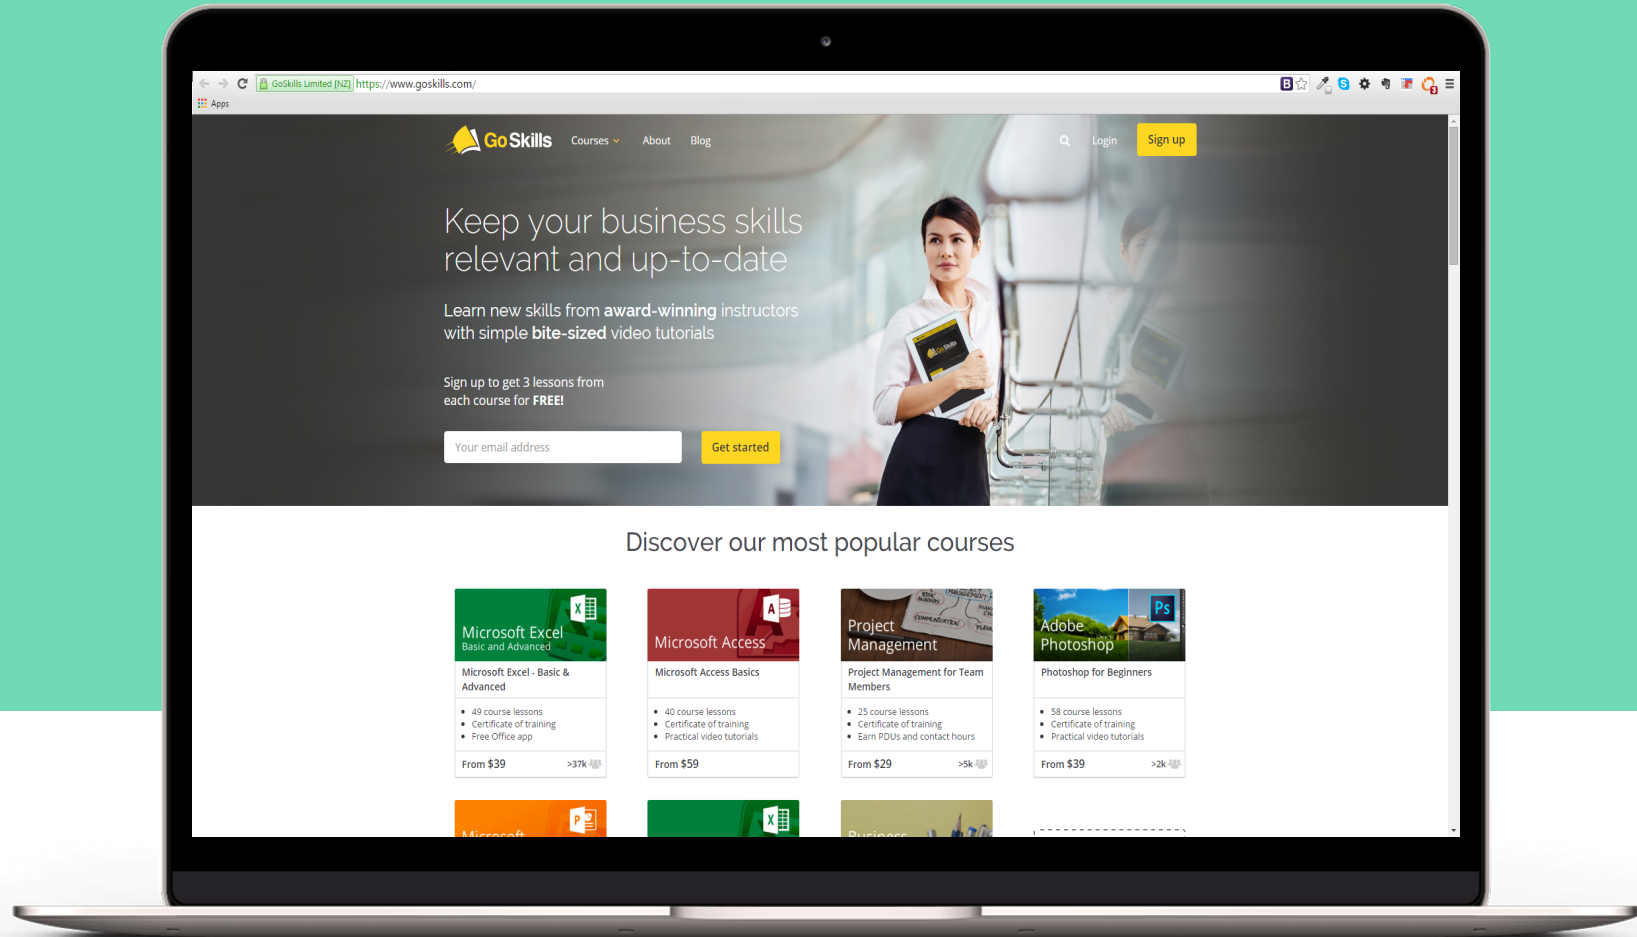

- VARIATION 1
- Change the image to a more “realistic” woman and change the value prop to be “take control, master a new skill.”
- VARIATION 2
- Change the image to a landscape theme with a path and change the value prop to “define your career path”

## RESULTS

---

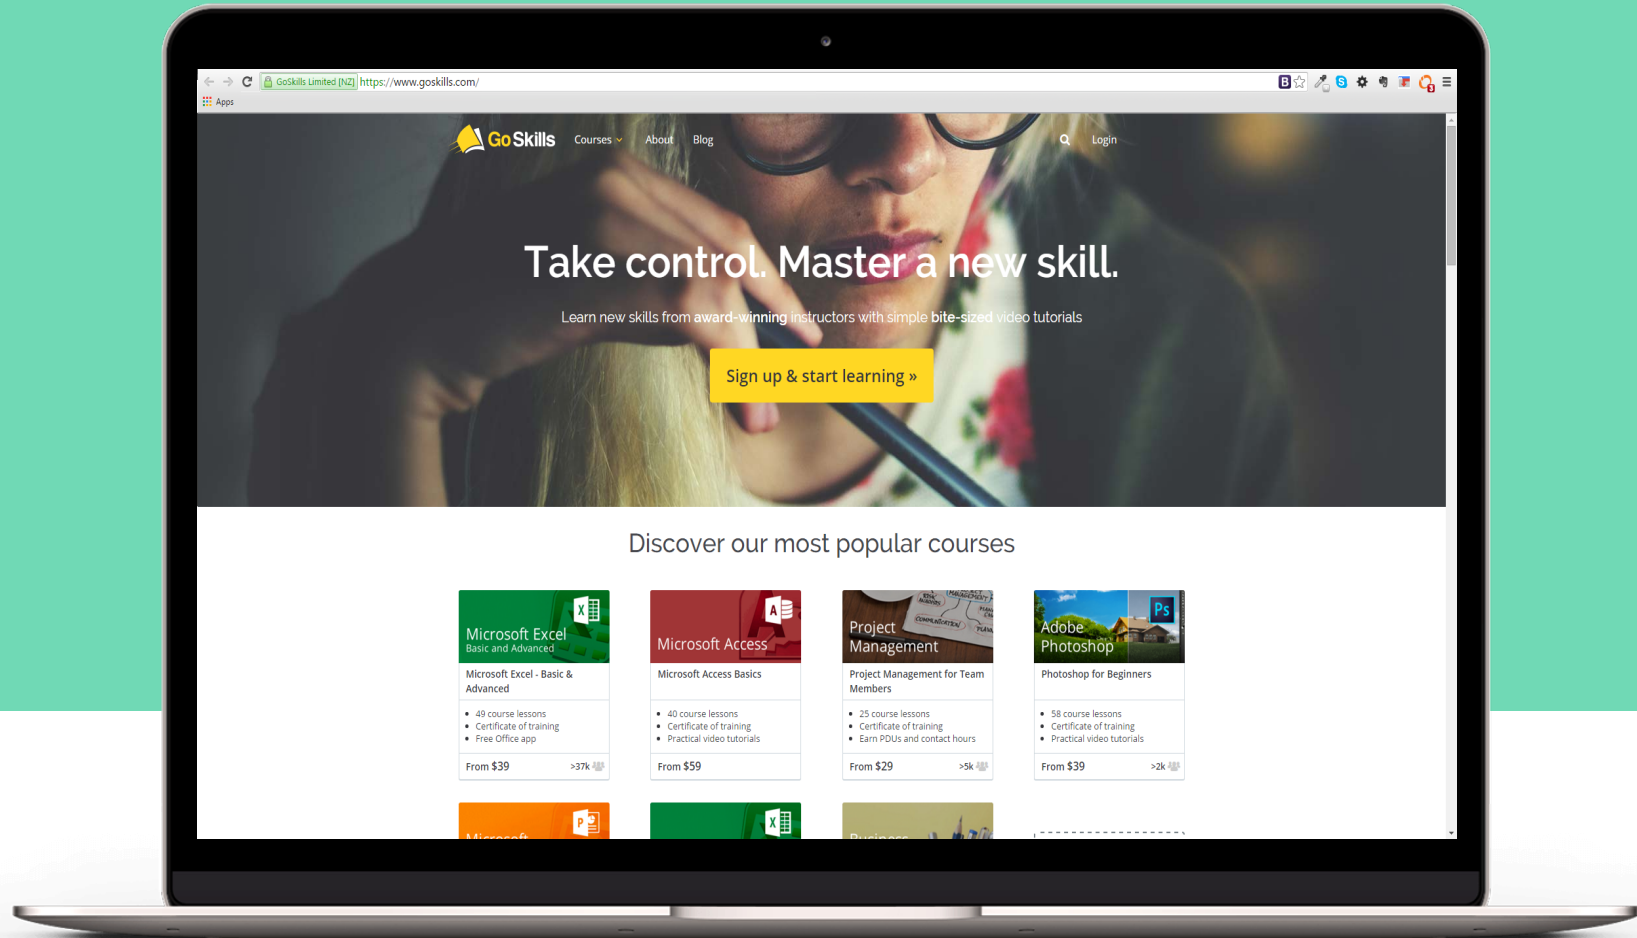

- **Variation 2 out-performed the original by 18% for cart completions and reduced the number of accounts created by 5%**
